Formal training in Python, C, HTML/CSS, and Javascript Curriculum based on Harvard edX CS50 platform.

Tech901 - IT Foundations Memphis, TN
01/2018 - 04/2018

Formal training for CompTIA IT Fundamentals & A+ certifications.

Side Projects

TripPlanner.java: Takes user input and calculates budget based on duration of trip, currency conversion, and displays time difference.
https://github.com/RAlanWright/Trip_Planner

OddsAndEvens.java: User input and randomized computer choice to see who wins a game of Odds and Evens.
<https://github.com/RAlanWright/Odds-and-Evens>

CV_Convert: Takes HTML/CSS and runs it through PhantomJS using PHP in order to generate a PDF file.
https://github.com/RAlanWright/CV_Convert

Volunteer Work

Worklist Web App: Contributed in building a mobile first Rails web application for Overton Park Conservancy during Givecamp 2018.
